The Gamblers' Trust is a veritable league of crime.

PERHY STREET.

Clars Street Is to He Called Perry Street to Oblige the Gamblers,

So elated are the gamblers over their success in Chicago that they have succeeded in having Clark street changed to Perry street, in honor of Mr. Perry.

Mr. Perry keeps a gambling house at 176 Clark street.

SOME LOSSES.

A Few of the Many Who Have Beer Robbed by the Trust.

A Milwankee brewer was skinned out of \$56,000 by the Trust managers in one of their houses.

A St. Paul dry-goods man was relieved of \$9,500 in Condon's "bay window" Friday last.

S. W. Trempelan, who came to Chicago with \$8,000 to lay groceries, lost it all in Hankins' den.

A. M. Peterson of Sioux City, who came to Chicago to buy furs, lost \$6,900 in Condow's in three hours.

Hundreds of minor losses are reported, but those given show the manner in which money is diverted from legitimate business channels into the pockets of the gamblers.

NO SQUARE GAMES.

The Trust Houses Bunning Brace Games from Start to Plaish.

It is hardly necessary to state that there are no square houses running under the auspices of the Hankins-Condon Trust.

If the houses were square they would not make the great sums of location is favorable for the purpose, lose a week's wages and more every clerks and poorer laborers. Boys are money that they do.

administration anyhow? Did not the Mayor compel City Sealer Adams to whack up his official receipts with Walter S. Bogle?

Did not the Mayor appoint his own son-in-law to the City Oil Inspectorship-an office paying \$18,000 a year?

THE TURKEY RAFFLE.

A Ten-Cent Roulette Game to Catch Suckers.

Imagine wide-open gambling on the public street!

The public are prepared for almost of this county: anything under the present administration. But the sight of an open roulette game is a new one in Chicago. At 105 West Madison street some of

the gang have rented a store. In the front windows coops are

placed, and a few turkeys promounde up and down. Over the door are huge signs, an-

nouncing a "turkey raille" within-"only 10 cents." Inside a wheel goes around, and the

suckers bet on a number. The chances are 1,000 to I against them, at 10 cents a chance. Occasionally one of the victims wins

a turkey. He is at once offered \$1.50 for his prize. He gladly accepts the offer, and before he leaves the place loses \$1.50 in trying to get another

In times gone by there was an honest administration of justice, and the men who are now milking Chicago dry were not allowed to trap the unwary.

Some of the men who are now runtting skin gambling games tried it, and they were punished for their pains. The best proof of this is the following from the records of the Criminal Court.
